TO KNOW WHAT TO DO AFTER THE FLOOD, LOOK INSIDE

After the flood waters...

Once the flood waters recede what should you expect? Sludge and stains are only the beginning...

Before

After

The Damage

Left untreated, buildings, infrastructure and assets can experience structural damage, rust, mold, & unsightly and foul-odor conditions.

What you should do once the water's gone:

- Dry it out as best you can
- Remove debris & clean as best you can

CALL SPARKLE WASH to let us:

- clean & remove mold causing bacteria
- Protect & seal your investment

The Solution

Sparkle Wash can help you get you back to normal.

Let us improve your building's appearance! Call us today for a free estimate!
